

KER Learning Loop 2019-20

Dear Students,

Welcome to the Kids Education Revolution Learning Loop for 2019-20!

We are very excited to reimagine education with you, and can't wait to hear your story! Everything you share with us over the course of the next few months will help us better understand the factors that helped you, and your project grow. We will then try to spread our learnings from your story to different educators around the world so they can see how other students can also raise their voice in a similar way.

This document will help you reflect on your journey and put together artifacts that best bring your story to life! Feel free to talk to a friend or your teacher, or even me, if you're feeling stuck and don't know how to move forward while working on these artifacts.

Please make sure you're completing all the artifacts mentioned below, pasting their links to this document, and then submitting the entire portfolio by **Monday, 14th October 2019**.

Thank you for sharing your story with us and we're looking forward to learning more from you!

Love,
Team KER

Please start by filling in the details below:

Student's Name	
Age	
Grade	
School	
Teacher/Mentor's Name	
Organization	
City	
Name of Project	

Short description of the project	
---	--

PART 1 – Personal Vision:

What? This piece should cover details about your personal journey till now, and any goals that you've set for yourself.

Why? This piece will help us understand you, and your beliefs a little better. It will also help us connect your personal journey to your project.

How? Try doing this piece on your own. This could be presented in any format of your choice; it could be in the form of an essay, a video, a few drawings, a vision board, or any other way that you would like. Try and be as creative and expressive as you can! We'd love to learn more about you in a way that you're most comfortable sharing. You can look at [Taarini](#), [Isha](#) and [Sanmyukta's](#) personal visions that they filled out during the Learning Loop process from last year. Please just look at these documents as just a spark for you to create your own vision, and feel free to go beyond what is shared here!

Here are a few guiding questions:

1. What is your vision/goal for yourself? Why? (It's okay if this is an evolving goal and changes constantly)
2. What do you think your strengths and areas of development are?
3. What beliefs and values are important to you?
4. Who is your biggest inspiration/role model? Why?

Estimated time: 1 to 3 hours

Please paste the links to your artifacts here -
--

PART 2 – Your Project

What? This piece is connected to the answers you gave during your interview where you spoke about your project.

Why? We'd like to understand the work you've done in a bit more detail.

How? You don't need to start anything from scratch for this part. If you have any session plans, pictures or other artefacts of your project, please share that here.

Estimated time: 15 minutes

Please paste the links to your artifacts here -
--

PART 3 – MBTI Test

What? MBTI stands for the Myers - Briggs Type Indicator which is an online questionnaire that helps determine certain personality traits that we might have.

Why? This test will help you (and us) get a better understanding of how you may perceive certain situations.

How? Please take [this test](#) and upload your results here. Try to be as honest as you can while answering the questions, and make sure that the answers are your own.

Estimated time: 15 minutes

State your type and paste the link to your results -
